THE POWER OF A #STORYTELLER

Youth exchange
25 August – 2 September
(including travel days)
Corund, Romania

Erasmus+

ABOUT THE PROJECT

Youth facilitators and workers recognize the art of storytelling, as a non formal educational tool for young people.

Storytelling is an extremely easy set of methods to apply during mobility, because each one of us has a story that can be shared and discussed with others.

Storytelling is a powerful way of engaging young people and encouraging the acquisition of key competences, such as verbal and communication skills in their mother tongue or in a foreign language, imagination, creativity, intercultural and social understanding, etc.

AIM OF THE PROJECT

The project aims to engage youth organizations in partnerships, which will provide them with positive direct experiences, practices, methods and tools that can be used to become more motivated when using storytelling in their work.

The goal of the #storyteller project is to involve the young participants of the mobility into a learning process based on storytelling methods, which will enrich their arsenal of key competences and their personal skills.

The objective of the exchange learning activities is to create practical tools that can be used as best practice methods, which will contribute to supporting partners to use storytelling as a learning method for young people.
