

# 12 months ESC project

## « Supporting the national community of volunteers »

### Our NATIONAL NETWORK

Our organization **helps people facing difficulties to renovate their home**. Our culture is based on concrete action, by doing and working together.

Compagnons Bâisseurs France is a network of organizations based in different parts of France that host around 200 volunteers each year (ESC and local volunteers under the French civic service).

- **Concretely**, volunteers do renovation workcamps, DIY workshops and have the opportunity to implement other solidarity projects.

- **Basically**, as a national organization we coordinate the Compagnons Bâisseurs network as a team (for example in the communication field, in grant funding field, in new projects...).

### THE ESC PROJECT: SUPPORTING THE TEAM OF VOLUNTEERS AND THEIR ONLINE COMMUNICATION

Each year, around 200 young people from France and international volunteers take part in our network to help inhabitants to improve their living conditions. They get involved for quite a long term (from 6 to 12 months) and some of them do specific projects.

Our ESC volunteer precisely has **to help them to manage those specific projects and to be a kind of community manager**.

- For example, many of them become **web reporters**, they create and share multimedia content related to their daily life of volunteers (photo, video, article). Our ESC volunteer supports them (eg workshop or training about **video editing**...) and manages **social medias** related to volunteers!

Instagram

- Some of them choose to be **member of the organization board**. They participate in the democratic life of Compagnons Bâisseurs, specifically through meetings where they speak for the volunteer's community. Our ESC volunteer supports them to understand the projects context and to participate to debates.

With the support of the national team, the ESC volunteer will create a lot of **multimedia content**.

[Some exemple here](#)

As volunteers get involved all over France, the ESC volunteer has the **possibility to travel a lot** and discover different cities.

He/she'll live in Rennes (Bretagne) close to the headquarters of the national organization with other international volunteers.

*Rennes (old city center)*

Financial and practical condition
