# WHO WE ARE ?

---

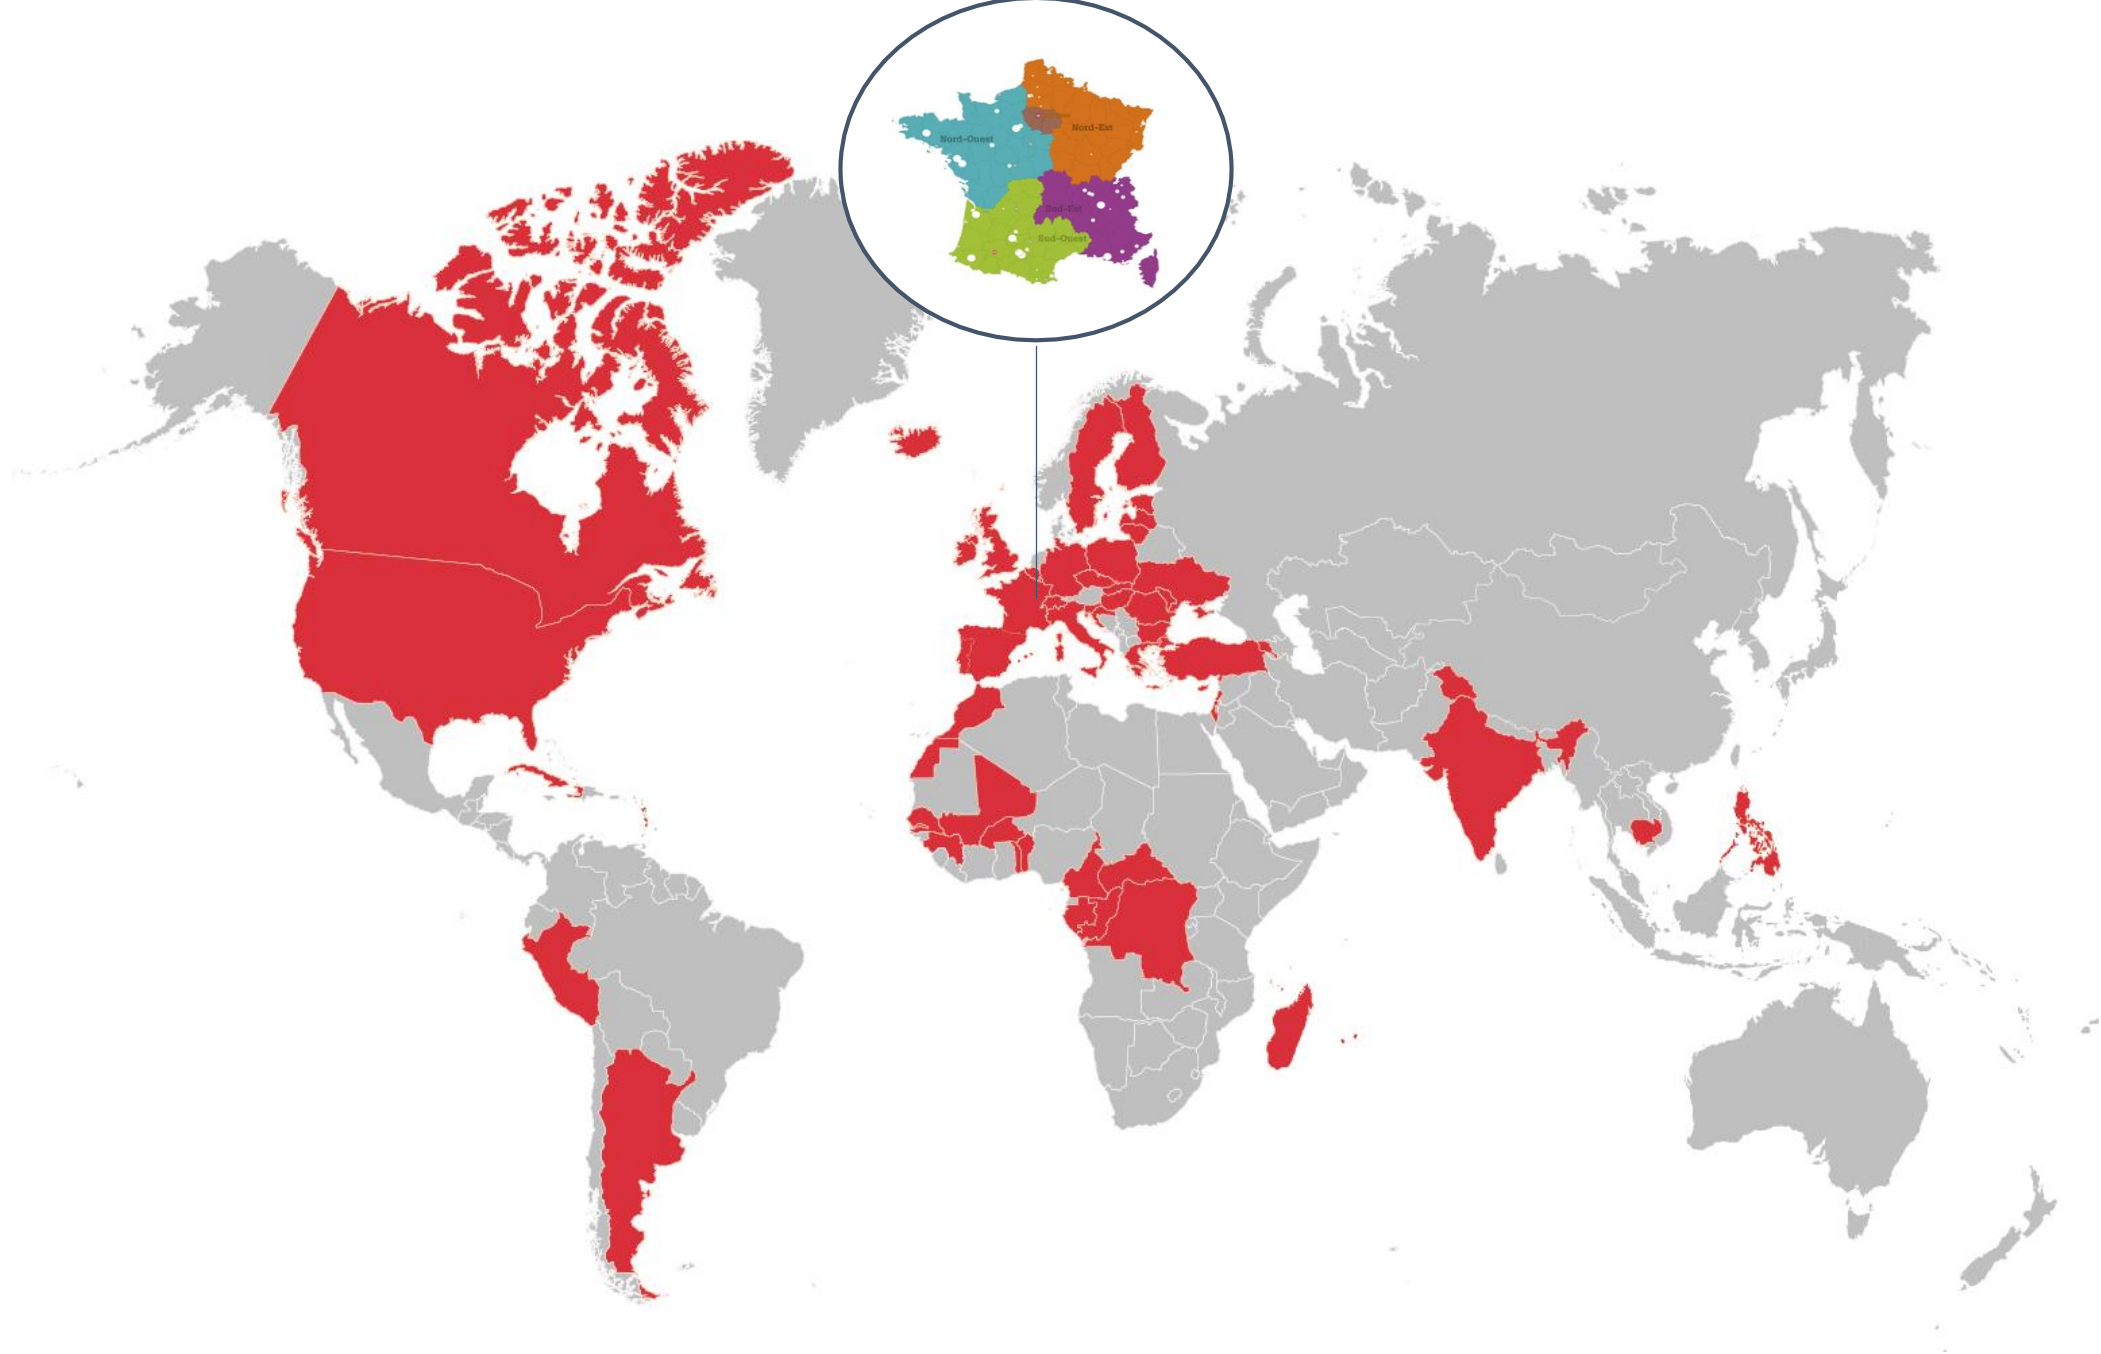

# Our main goal and key figures

For more than 150 years, Apprentis d'Auteuil, a Government-recognised Catholic Public Service Foundation, has worked to enable young men and women facing difficulties to get back on their feet, in France and worldwide.

## KEY FIGURES

- In France, we have been working for nearly 150 years and in other parts of the world for over 20 years
- In France, we manage more than 250 institutions looking after 30 000 young people and their families
- Abroad, we have a network of 60 partner organisations in roughly 24 countries
- More than 12,000 young people and families supported worldwide

# Our values

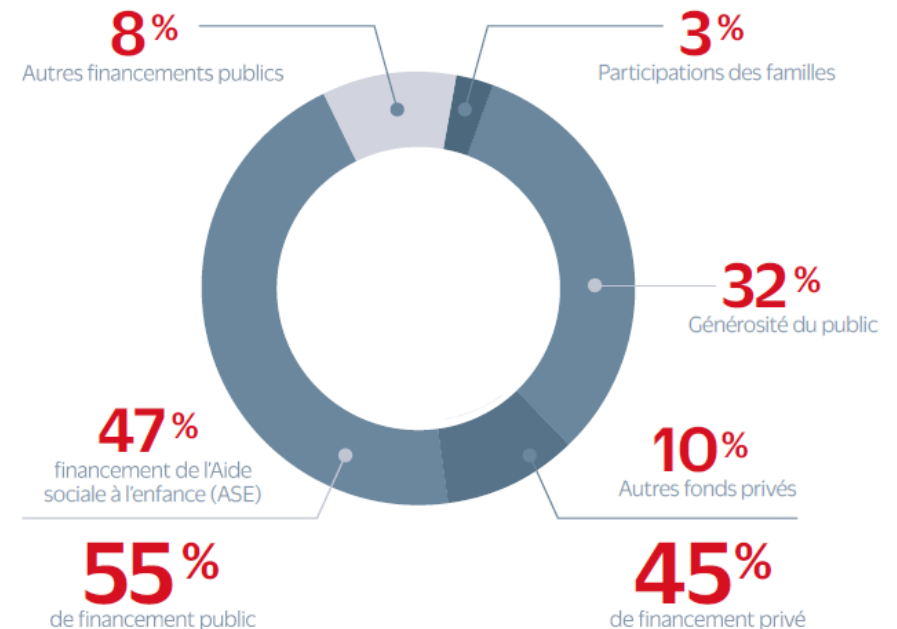

- Based on Christian values, we place **trust** at the heart of our mission.
- We believe in **hope**: with the right support, young people and families can achieve their full potential.
- Our other core values are: **freedom, respect, caring for others...**

# Our financial resources

- > **A budget over €464 million to help young people and their families**
- > **Apprentis d'Auteuil's resources come from :**
  - Private funds (45%): foundations, donors, corporations such as Carrefour or Orange
  - Public funds (55%): the Child Welfare Office and institutional organizations such as the French Development Agency, the Principality of Monaco and the European Union

# WHAT DO WE DO?

---

# Our fields of action

**CHILD PROTECTION** : a mission of public interest carried out by Apprentis d'Auteuil at the request of departments to accommodate children and adolescents in danger or at risk of being in danger, in our children's homes.

**EDUCATION AND SCHOOLING** : we offer personalized support tailored to the needs of young people with learning or behavioral difficulties in order to avoid school dropout, in our schools and in other educational institutions.

**INSERTION OF YOUNG PEOPLE** aged between 16-30 years old : we offer training programs through apprenticeship, in parallel to schooling in our secondary and professional schools. For those with no qualifications and with no family support, we provide social support, the possibility to learn a job and help to access housing and healthcare.

**SUPPORT FAMILIES** : we help parents in difficulties, at nurseries and at "Maisons des Familles" (Community House for Families) to have the good educational gestures. This support aims at preserving the bond between parents and their children, as well as preventing any major difficulties from arising.

# Youth participation and advocacy

- **With a strong presence in public debate and towards decision-makers, our goals are:**
  - To make the voice of vulnerable young people and their families heard
  - To contribute to improving social and family policies
  - To raise awareness and change people's views on these young people and families
  
- **Abroad, we defend children's and families' rights according to the problems of each country.**
