ASSOCIATION NATIONALE

Who are We ?

Compagnons Bâisseurs is a French NGO founded in 1957 in order to help people from the working class build their homes. Since then, we have been working with people with low income to help them improve their own living conditions through renovation work and workshops.

Our values

Non formal education : We believe that any individual can learn by himself/herself and be a valuable member of our project. We also encourage volunteers to develop their personal project.

Social diversity : Our activities involve the people of the community, French and international volunteers. By supporting diversity, we aim at promoting cultural understanding.

The volunteering project

Contributing to renovation work : you will help local teams renovating houses. You will learn with the team so prior experience is not needed, but enjoying manual work is necessary !

Organizing workshops : Our teams implement weekly workshops related to housing for the local community. You will help us organize them and reach out to the people.

Who can apply ?

Every person between 18 and 30 years old can work with us. Volunteers are chosen regarding their motivation about our project, manual work and social work.
